

I learned to sail with ASI in 1998. After sailing with ASI for one year work and life took me away from sailing and ASI for a few years. In 2003 my wife Trish gave me 13ft Club Jr for our anniversary. After several seasons of sailing this on Elk Lake I had the bug to sail bigger boats, so I rejoined ASI in 2005 and rated level 1. I rated level 2 in 2007.

In addition to the club boats I have recently upgraded my up North Boat. I now sail a Skipper 20, the Fairweather, on Elk Lake.

I work for Ford Motor Company developing fuel cell propulsion systems.
